

Schriftenverzeichnis Bärbel Friedrich: Februar 2014

1. **Friedrich, B. and H. G. Schlegel.**
Hydroxylation of phenylalanine by *Hydrogenomonas eutropha* H16.
Arch Mikrobiol. **83**:17-31, 1972.
2. **Friedrich, B. and H. G. Schlegel.**
Aromatic amino acid biosynthesis in *Alcaligenes eutrophus* H16. II. The isolation and characterization of mutants auxotrophic for phenylalanine and tyrosine.
Arch Mikrobiol. **103**:141-149, 1975.
3. **Friedrich, C. G., B. Friedrich, and H. G. Schlegel.**
Aromatic amino acid biosynthesis in *Alcaligenes eutrophus* H 16 III. Properties and regulation of anthranilate synthase.
Arch Mikrobiol. **107**:125-131, 1976.
4. **Friedrich, B., C. G. Friedrich, and H. G. Schlegel.**
Purification and properties of chorismate mutase-prephenate dehydratase and prephenate dehydrogenase from *Alcaligenes eutrophus*.
J Bacteriol. **126**:712-722, 1976.
5. **Friedrich, C. G., B. Friedrich, and H. G. Schlegel.**
Regulation of chorismate mutase-prephenate dehydratase and prephenate dehydrogenase from *Alcaligenes eutrophus*.
J Bacteriol. **126**:723-732, 1976.
6. **Friedrich, B. and B. Magasanik.**
Urease of *Klebsiella aerogenes*: control of its synthesis by glutamine synthetase.
J Bacteriol. **131**:446-452, 1977.
7. **Friedrich, B. and B. Magasanik.**
Utilization of arginine by *Klebsiella aerogenes*.
J Bacteriol. **133**:680-685, 1978.
8. **Friedrich, B., C. G. Friedrich, and B. Magasanik.**
Catabolic N^2 -acetylornithine 5-aminotransferase of *Klebsiella aerogenes*: control of synthesis by induction, catabolite repression, and activation by glutamine synthetase.
J Bacteriol. **133**:686-691, 1978.
9. **Friedrich, B. and B. Magasanik.**
Enzymes of agmatine degradation and the control of their synthesis in *Klebsiella aerogenes*.
J Bacteriol. **137**:1127-1133, 1979.
10. **Friedrich, C. G., B. Bowien, and B. Friedrich.**
Formate and oxalate metabolism in *Alcaligenes eutrophus*.
J Gen Microbiol. **115**:185-192, 1979.
11. **Friedrich, B., C. Hogrefe, and H. G. Schlegel.**
Naturally occurring genetic transfer of hydrogen-oxidizing ability between strains of *Alcaligenes eutrophus*.
J Bacteriol. **147**:198-205, 1981.
12. **Friedrich, B., E. Heine, A. Finck, and C. G. Friedrich.**
Nickel requirement for active hydrogenase formation in *Alcaligenes eutrophus*.
J Bacteriol. **145**:1144-1149, 1981.

13. **Friedrich, C. G., B. Friedrich, and B. Bowien.**
Formation of enzymes of autotrophic metabolism during heterotrophic growth of *Alcaligenes eutrophus*.
J Gen Microbiol. **122**:69-78, 1981.
14. **Schlegel, H. G., M. E. K. Ibrahim, E. Wilde, K. Schneider, M. Schlesier, B. Friedrich, and K. A. Malik.**
Detrimental and beneficial effects of oxygen exerted on hydrogen-oxidizing bacteria.
In A. Hollaender (ed.), vol. **17**, pp. 107-129. Basic Life Sciences Plenum Publishing Corporation, New York. 1981.
15. **Schlesier, M. and B. Friedrich.**
In vivo inactivation of soluble hydrogenase of *Alcaligenes eutrophus*.
Arch Mikrobiol. **129**:150-153, 1981.
16. **Friedrich, C. G., K. Schneider, and B. Friedrich.**
Nickel in the catalytically active hydrogenase of *Alcaligenes eutrophus*.
J Bacteriol. **152**:42-48, 1982.
17. **Gerstenberg, C., B. Friedrich, and H. G. Schlegel.**
Physical evidence for plasmids in autotrophic, especially hydrogen-oxidizing bacteria.
Arch Mikrobiol. **133**:90-96, 1982.
18. **Schlesier, M. and B. Friedrich.**
Histidine utilization by *Alcaligenes eutrophus*: regulation of histidase formation under heterotrophic conditions of growth.
Arch Mikrobiol. **132**:254-259, 1982.
19. **Schlesier, M. and B. Friedrich.**
Effect of molecular hydrogen on histidine utilization by *Alcaligenes eutrophus*.
Arch Mikrobiol. **132**:260-265, 1982.
20. **Srivastava, S., M. Urban, and B. Friedrich.**
Mutagenesis of *Alcaligenes eutrophus* by insertion of the drug-resistance transposon Tn5.
Arch Mikrobiol. **131**:203-207, 1982.
21. **Friedrich, B., M. Meyer, and H. G. Schlegel.**
Transfer and expression of the herbicide-degrading plasmid pJP4 in aerobic autotrophic bacteria.
Arch Mikrobiol. **134**:92-97, 1983.
22. **Friedrich, C. G. and B. Friedrich.**
Regulation of hydrogenase formation is temperature sensitive and plasmid coded in *Alcaligenes eutrophus*.
J Bacteriol. **153**:176-181, 1983.
23. **Bowien, B., B. Friedrich, and C. G. Friedrich.**
Involvement of megaplasmids in heterotrophic derepression of the carbon-dioxide assimilating enzyme system in *Alcaligenes* spp.
Arch Mikrobiol. **139**:305-310, 1984.

24. **Friedrich, B., C. G. Friedrich, M. Meyer, and H. G. Schlegel.**
Expression of hydrogenase in *Alcaligenes* spp. is altered by interspecific plasmid exchange.
J Bacteriol. **158**:331-333, 1984.
25. **Friedrich, B. and C. Hogrefe.**
Genetics of lithoautotrophic metabolism in *Alcaligenes eutrophus*.
In R. L. Crawford and R. S. Hanson (eds.), Microbial Growth on C₁ compounds, pp. 244 -247. ASM, Washington DC. 1984.
26. **Hogrefe, C., D. Römermann, and B. Friedrich.**
Alcaligenes eutrophus hydrogenase genes (*hox*).
J Bacteriol. **158**:43-48, 1984.
27. **Hogrefe, C. and B. Friedrich.**
Isolation and characterization of megaplasmid DNA from lithoautotrophic bacteria.
Plasmid. **12**:161-169, 1984.
28. **Friedrich, B.**
Evolution of chemolithoautotrophy.
In K. H. Schleifer and E. Stackebrandt (eds.), Evolution of Prokaryotes, pp. 205-234. Academic Press Inc., London. 1985.
29. **Friedrich, B.**
Unkonventionelle Stoffwechselwege in Bakterien werden durch Riesenplasmide kodiert. .
Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin, vol. **27**, pp. 127-144, 1985.
30. **Römermann, D. and B. Friedrich.**
Denitrification by *Alcaligenes eutrophus* is plasmid dependent.
J Bacteriol. **162**:852-854, 1985.
31. **Eberz, G., C. Hogrefe, C. Kortlüke, A. Kamienski, and B. Friedrich.**
Molecular cloning of structural and regulatory hydrogenase (*hox*) genes of *Alcaligenes eutrophus* H16.
J Bacteriol. **168**:636-641, 1986.
32. **Friedrich, B., C. Kortlüke, C. Hogrefe, G. Eberz, B. Silber, and J. Warrelmann.**
Genetics of hydrogenase from aerobic lithoautotrophic bacteria.
Biochimie. **68**:133-145, 1986.
33. **Warrelmann, J. and B. Friedrich.**
Mutants of *Pseudomonas facilis* defective in lithoautotrophy.
J Gen Microbiol. **132**:91-96, 1986.
34. **Friedrich, B.**
Gentechnologie: Mikroorganismen als Werkzeuge im Dienst des Menschen.
In Niemitz (ed.), vol. **646**, pp. 73-94. Suhrkamp Taschenbuch Wissenschaft. 1987.

35. **Friedrich, B.**
Genetics of aerobic lithoautotrophs.
In H. W. Van Verseveld and J. A. Duine (eds.), *Microbial Growth on C₁ compounds*, pp. 230-237. Nijhoff Publishers. 1987.
36. **Kortlüke, C., C. Hogrefe, G. Eberz, A. Pühler, and B. Friedrich.**
Genes of lithoautotrophic metabolism are clustered on the megaplasmid pHG1 in *Alcaligenes eutrophus*.
Mol Gen Genet. **210**:122-128, 1987.
37. **Nies, D., M. Mergeay, B. Friedrich, and H. G. Schlegel.**
Cloning of plasmid genes encoding resistance to cadmium, zinc, and cobalt in *Alcaligenes eutrophus* CH34.
J Bacteriol. **169**:4865-4868, 1987.
38. **Römermann, D., M. Lohmeyer, C. G. Friedrich, and B. Friedrich.**
Pleiotropic mutants from *Alcaligenes eutrophus* defective in the metabolism of hydrogen, nitrate, urea and fumarate.
Arch Mikrobiol. **149**:471-475, 1988.
39. **Schneider, B., A. Nies, and B. Friedrich.**
Transfer and expression of lithoautotrophy and denitrification in a host lacking these metabolic activities.
Appl Environ Microbiol. **54**:3173-3176, 1988.
40. **Eberz, G., T. Eitinger, and B. Friedrich.**
Genetic determinants of a nickel-specific transport system are part of the plasmid-encoded hydrogenase gene cluster in *Alcaligenes eutrophus*.
J Bacteriol. **171**:1340-1345, 1989.
41. **Fiebig, K. and B. Friedrich.**
Purification of the F₄₂₀-reducing hydrogenase from *Methanosarcina barkeri* (strain Fusaro).
Eur J Biochem. **184**:79-88, 1989.
42. **Friedrich, B.**
Genetics of energy converting systems in aerobic chemolithotrophs.
In H. G. Schlegel and B. Bowien (eds.), *Biology of autotrophic bacteria*, pp. 415-436. Science Tech Publishers, Madison; Springer Verlag, Heidelberg. 1989.
43. **Römermann, D., J. Warrelmann, R. A. Bender, and B. Friedrich.**
An *rpoN*-like gene of *Alcaligenes eutrophus* and *Pseudomonas facilis* controls expression of diverse metabolic pathways, including hydrogen oxidation.
J Bacteriol. **171**:1093-1099, 1989.
44. **Warrelmann, J. and B. Friedrich.**
Genetic transfer of lithoautotrophy mediated by a plasmid-cointegrate from *Pseudomonas facilis*.
Arch Mikrobiol. **151**:359-364, 1989.
45. **Warrelmann, J. and B. Friedrich.**
Large plasmids in wild type strains of *Pseudomonas facilis*.
Endocytobiosis and Cell Res. **2**:213-217, 1989.

46. **Weihls, V., K. Schmidt, B. Schneider, and B. Friedrich.**
The formation of an oxygen-binding flavohemoprotein in *Alcaligenes eutrophus* is plasmid-determined.
Arch Mikrobiol. **151**:546-550, 1989.
47. **Bender, R. A. and B. Friedrich.**
Regulation of assimilatory nitrate reductase formation in *Klebsiella aerogenes* W70.
J Bacteriol. **172**:7256-7259, 1990.
48. **Friedrich, B., U. Warnecke, R. Sann, and B. Schneider.**
Genetics of denitrification by *Alcaligenes eutrophus*.
Proceedings of the 5th European Congress on Biotechnology, Copenhagen, 1990.
49. **Friedrich, B. and C. G. Friedrich.**
Hydrogenases in lithoautotrophic bacteria.
In G. A. Codd, L. Dijkhuizen, and F. R. Tabita (eds.), Advances in autotrophic microbiology and one carbon-metabolism, pp. 55-92. Kluwer Academic Publishers, Dordrecht, The Netherlands. 1990.
50. **Friedrich, B.**
The plasmid-encoded hydrogenase gene cluster in *Alcaligenes eutrophus*.
FEMS Microbiol Rev. **87**:425-430, 1990.
51. **Hornhardt, S., K. Schneider, B. Friedrich, B. Vogt, and H. G. Schlegel.**
Identification of distinct NAD-linked hydrogenase protein species in mutants and nickel-deficient wild-type cells of *Alcaligenes eutrophus* H16.
Eur J Biochem. **189**:529-537, 1990.
52. **Naumann, M., C. Hanski, B. Friedrich, and E. O. Riecken.**
A rapid in situ expression test for virulence-associated proteins of *Yersinia enterocolitica*.
J Microbiol Methods. **11**:83-93, 1990.
53. **Tran-Betcke, A., U. Warnecke, C. Böcker, C. Zaborosch, and B. Friedrich.**
Cloning and nucleotide sequences of the genes for the subunits of NAD-reducing hydrogenase of *Alcaligenes eutrophus* H16.
J Bacteriol. **172**:2920-2929, 1990.
54. **Dressler, C., U. Kues, D. H. Nies, and B. Friedrich.**
Determinants Encoding Resistance to Several Heavy Metals in Newly Isolated Copper-Resistant Bacteria.
Appl Environ Microbiol. **57**:3079-3085, 1991.
55. **Eberz, G. and B. Friedrich.**
Three trans-acting regulatory functions control hydrogenase synthesis in *Alcaligenes eutrophus*.
J Bacteriol. **173**:1845-1854, 1991.
56. **Eitinger, T. and B. Friedrich.**
Cloning, nucleotide sequence, and heterologous expression of a high-affinity nickel transport gene from *Alcaligenes eutrophus*.
J Biol Chem. **266**:3222-3227, 1991.

57. **Hanski, C., M. Naumann, A. Grutzkau, G. Pluschke, B. Friedrich, H. Hahn, and E. O. Riecken.**
Humoral and cellular defense against intestinal murine infection with *Yersinia enterocolitica*.
Infect Immun. **59**:1106-1111, 1991.
58. **Wolfram, L., T. Eitinger, and B. Friedrich.**
Construction and properties of a triprotein containing the high-affinity nickel transporter of *Alcaligenes eutrophus*.
FEBS Lett. **283**:109-112, 1991.
59. **Kömen, R., K. Schmidt, and B. Friedrich.**
Hydrogenase mutants of *Alcaligenes eutrophus* H16 show alterations in the electron transport system.
FEMS Microbiol Lett. **75**:173-178, 1992.
60. **Kortlüke, C., K. Horstmann, E. Schwartz, M. Rohde, R. Binsack, and B. Friedrich.**
A gene complex coding for the membrane-bound hydrogenase of *Alcaligenes eutrophus* H16.
J Bacteriol. **174**:6277-6289, 1992.
61. **Kortlüke, C. and B. Friedrich.**
Maturation of membrane-bound hydrogenase of *Alcaligenes eutrophus* H16.
J Bacteriol. **174**:6290-6293, 1992.
62. **Rensing, C., U. Kues, U. Stahl, D. H. Nies, and B. Friedrich.**
Expression of bacterial mercuric ion reductase in *Saccharomyces cerevisiae*.
J Bacteriol. **174**:1288-1292, 1992.
63. **Warrelmann, J., M. Eitinger, E. Schwartz, D. Römermann, and B. Friedrich.**
Nucleotide sequence of the *rpoN* (*hno*) gene region of *Alcaligenes eutrophus*: evidence for a conserved gene cluster.
Arch Mikrobiol. **158**:107-114, 1992.
64. **Zumft, W. G., A. Dreusch, S. Löchelt, H. Cuypers, B. Friedrich, and B. Schneider.**
Derived amino acid sequences of the *nosZ* gene (respiratory N₂O reductase) from *Alcaligenes eutrophus*, *Pseudomonas aeruginosa* and *Pseudomonas stutzeri* reveal potential copper-binding residues. Implications for the Cu_A site of N₂O reductase and cytochrome-*c* oxidase.
Eur J Biochem. **208**:31-40, 1992.
65. **Dernedde, J., M. Eitinger, and B. Friedrich.**
Analysis of a pleiotropic gene region involved in formation of catalytically active hydrogenases in *Alcaligenes eutrophus* H16.
Arch Mikrobiol. **159**:545-553, 1993.
66. **Friedrich, B. and E. Schwartz.**
Molecular biology of hydrogen utilization in aerobic chemolithotrophs.
Annu Rev Microbiol. **47**:351-383, 1993.

67. **Siddiqui, R. A., U. Warnecke-Eberz, A. Hengsberger, B. Schneider, S. Kostka, and B. Friedrich.**
Structure and function of a periplasmic nitrate reductase in *Alcaligenes eutrophus* H16.
J Bacteriol. **175**:5867-5876, 1993.
68. **Warnecke-Eberz, U. and B. Friedrich.**
Three nitrate reductase activities in *Alcaligenes eutrophus*.
Arch Mikrobiol. **159**:405-409, 1993.
69. **Cramm, R., R. A. Siddiqui, and B. Friedrich.**
Primary sequence and evidence for a physiological function of the flavohemoprotein of *Alcaligenes eutrophus*.
J Biol Chem. **269**:7349-7354, 1994.
70. **Eitinger, T. and B. Friedrich.**
A topological model for the high-affinity nickel transporter of *Alcaligenes eutrophus*.
Mol Microbiol. **12**:1025-1032, 1994.
71. **Lenz, O., E. Schwartz, J. Dervedde, M. Eitinger, and B. Friedrich.**
The *Alcaligenes eutrophus* H16 *hoxX* gene participates in hydrogenase regulation.
J Bacteriol. **176**:4385-4393, 1994.
72. **Sann, R., S. Kostka, and B. Friedrich.**
A cytochrome *cd*₁-type nitrite reductase mediates the first step of denitrification in *Alcaligenes eutrophus*.
Arch Mikrobiol. **161**:453-459, 1994.
73. **Eitinger, T., L. Wolfram, and B. Friedrich.**
Molecular characterization of the *Alcaligenes eutrophus* nickel permease
J Inorg Biochem. **59**:644, 1995.
74. **Ermler, U., R. A. Siddiqui, R. Cramm, and B. Friedrich.**
Crystal structure of the flavohemoglobin from *Alcaligenes eutrophus* at 1.75 Å resolution.
Embo J. **14**:6067-6077, 1995.
75. **Ermler, U., R. A. Siddiqui, R. Cramm, D. Schröder, and B. Friedrich.**
Crystallization and preliminary X-ray diffraction studies of a bacterial flavohemoglobin protein.
Proteins. **21**:351-353, 1995.
76. **Wolfram, L., B. Friedrich, and T. Eitinger.**
The *Alcaligenes eutrophus* protein HoxN mediates nickel transport in *Escherichia coli*.
J Bacteriol. **177**:1840-1843, 1995.
77. **Zimmer, D., E. Schwartz, A. Tran-Betcke, P. Gewinner, and B. Friedrich.**
Temperature tolerance of hydrogenase expression in *Alcaligenes eutrophus* is conferred by a single amino acid exchange in the transcriptional activator HoxA.
J Bacteriol. **177**:2373-2380, 1995.

78. **Bernhard, M., E. Schwartz, J. Rietdorf, and B. Friedrich.**
The *Alcaligenes eutrophus* membrane-bound hydrogenase gene locus encodes functions involved in maturation and electron transport coupling.
J Bacteriol. **178**:4522-4529, 1996.
79. **Dernedde, J., T. Eitinger, N. Patenge, and B. Friedrich.**
hyp gene products in *Alcaligenes eutrophus* are part of a hydrogenase-maturation system.
Eur J Biochem. **235**:351-358, 1996.
80. **Friedrich, B., M. Bernhard, J. Dernedde, T. Eitinger, O. Lenz, C. Massanz, and E. Schwartz.**
Hydrogen oxidation by *Alcaligenes eutrophus*.
8th International Symposium on Microbial Growth on C1 Compounds:110-117, 1996.
81. **Hole, U. H., K. U. Vollack, W. G. Zumft, E. Eisenmann, R. A. Siddiqui, B. Friedrich, and P. M. Kroneck.**
Characterization of the membranous denitrification enzymes nitrite reductase (cytochrome *cd₁*) and copper-containing nitrous oxide reductase from *Thiobacillus denitrificans*.
Arch Mikrobiol. **165**:55-61, 1996.
82. **Thiemermann, S., J. Dernedde, M. Bernhard, W. Schroeder, C. Massanz, and B. Friedrich.**
Carboxyl-terminal processing of the cytoplasmic NAD-reducing hydrogenase of *Alcaligenes eutrophus* requires the *hoxW* gene product.
J Bacteriol. **178**:2368-2374, 1996.
83. **Bernhard, M., B. Benelli, A. Hochkoeppler, D. Zannoni, and B. Friedrich.**
Functional and structural role of the cytochrome *b* subunit of the membrane-bound hydrogenase complex of *Alcaligenes eutrophus* H16.
Eur J Biochem. **248**:179-186, 1997.
84. **Cramm, R., R. A. Siddiqui, and B. Friedrich.**
Two isofunctional nitric oxide reductases in *Alcaligenes eutrophus* H16.
J Bacteriol. **179**:6769-6777, 1997.
85. **Eitinger, T., L. Wolfram, J. Dernedde, I. Wolf, N. Patenge, and B. Friedrich.**
Nickel metabolism in *Alcaligenes eutrophus*: uptake by a Ni²⁺-specific permease and metal insertion into the hydrogenases.37-50, 1997.
86. **Eitinger, T., L. Wolfram, O. Degen, and C. Anthon.**
A Ni²⁺ binding motif is the basis of high affinity transport of the *Alcaligenes eutrophus* nickel permease.
J Biol Chem. **272**:17139-17144, 1997.
87. **Eitinger, T. and B. Friedrich.**
Microbial nickel transport and incorporation into hydrogenases.
In G. Winkelmann and C. Carrano (eds.), Transition Metals in Microbial Metabolism, pp. 235-256. Harwood Academic Publishers, Amsterdam. 1997.

88. **Friedrich, B.**
Wasserstoff: Eine früh verfügbare Energiequelle der biochemischen Evolution. Berlin-Brandenburgische Akademie der Wissenschaften, Berichte & Abhandlungen, vol. **4**, pp. 9-22. Akademie Verlag, Berlin. 1997.
89. **Lenz, O., A. Strack, A. Tran-Betcke, and B. Friedrich.**
A hydrogen-sensing system in transcriptional regulation of hydrogenase gene expression in *Alcaligenes* species.
J Bacteriol. **179**:1655-1663, 1997.
90. **Massanz, C., V. M. Fernandez, and B. Friedrich.**
C-terminal extension of the H₂-activating subunit, HoxH, directs maturation of the NAD-reducing hydrogenase in *Alcaligenes eutrophus*.
Eur J Biochem. **245**:441-448, 1997.
91. **Rees, E., R. A. Siddiqui, F. Köster, B. Schneider, and B. Friedrich.**
Structural gene (*nirS*) for the cytochrome *cd*₁ nitrite reductase of *Alcaligenes eutrophus* H16.
Appl Environ Microbiol. **63**:800-802, 1997.
92. **Buhrke, T. and B. Friedrich.**
hoxX (*hypX*) is a functional member of the *Alcaligenes eutrophus* *hyp* gene cluster.
Arch Mikrobiol. **170**:460-463, 1998.
93. **Friedrich, B.**
Ein Leben mit molekularem Wasserstoff.
Sitzungsberichte, Jahrbuch der LEOPOLDINA (R3), vol. **43**, pp. 185-193, 1998.
94. **Lenz, O. and B. Friedrich.**
A novel multicomponent regulatory system mediates H₂ sensing in *Alcaligenes eutrophus*.
Proc Natl Acad Sci USA. **95**:12474-12479, 1998.
95. **Lieb, C., R. A. Siddiqui, B. Hippler, D. Jahn, and B. Friedrich.**
The *Alcaligenes eutrophus* *hemN* gene encoding the oxygen-independent coproporphyrinogen III oxidase, is required for heme biosynthesis during anaerobic growth.
Arch Mikrobiol. **169**:52-60, 1998.
96. **Massanz, C., S. Schmidt, and B. Friedrich.**
Subforms and in vitro reconstitution of the NAD-reducing hydrogenase of *Alcaligenes eutrophus*.
J Bacteriol. **180**:1023-1029, 1998.
97. **Pierik, A. J., M. Schmelz, O. Lenz, B. Friedrich, and S. P. Albracht.**
Characterization of the active site of a hydrogen sensor from *Alcaligenes eutrophus*.
FEBS Lett. **438**:231-235, 1998.
98. **Schwartz, E., U. Gerischer, and B. Friedrich.**
Transcriptional regulation of *Alcaligenes eutrophus* hydrogenase genes.
J Bacteriol. **180**:3197-3204, 1998.

99. **Wolf, I., T. Buhrke, J. Dervede, A. Pohlmann, and B. Friedrich.**
Duplication of *hyp* genes involved in maturation of [NiFe] hydrogenases in *Alcaligenes eutrophus* H16.
Arch Mikrobiol. **170**:451-459, 1998.
100. **Cramm, R., A. Pohlmann, and B. Friedrich.**
Purification and characterization of the single-component nitric oxide reductase from *Ralstonia eutropha* H16.
FEBS Lett. **460**:6-10, 1999.
101. **Massanz, C. and B. Friedrich.**
Amino acid replacements at the H₂-activating site of the NAD-reducing hydrogenase from *Alcaligenes eutrophus*.
Biochemistry. **38**:14330-14337, 1999.
102. **Schwartz, E., T. Buhrke, U. Gerischer, and B. Friedrich.**
Positive transcriptional feedback controls hydrogenase expression in *Alcaligenes eutrophus* H16.
J Bacteriol. **181**:5684-5692, 1999.
103. **Siedow, A., R. Cramm, R. A. Siddiqui, and B. Friedrich.**
A megaplasmid-borne anaerobic ribonucleotide reductase in *Alcaligenes eutrophus* H16.
J Bacteriol. **181**:4919-4928, 1999.
104. **Bernhard, M., B. Friedrich, and R. A. Siddiqui.**
Ralstonia eutropha TF93 is blocked in tat-mediated protein export.
J Bacteriol. **182**:581-588, 2000.
105. **Happe, R. P., W. Roseboom, G. Egert, C. G. Friedrich, C. Massanz, B. Friedrich, and S. P. Albracht.**
Unusual FTIR and EPR properties of the H₂-activating site of the cytoplasmic NAD-reducing hydrogenase from *Ralstonia eutropha*.
FEBS Lett. **466**:259-263, 2000.
106. **Kleihues, L., O. Lenz, M. Bernhard, T. Buhrke, and B. Friedrich.**
The H₂ sensor of *Ralstonia eutropha* is a member of the subclass of regulatory [NiFe] hydrogenases.
J Bacteriol. **182**:2716-2724, 2000.
107. **Pohlmann, A., R. Cramm, K. Schmelz, and B. Friedrich.**
A novel NO-responding regulator controls the reduction of nitric oxide in *Ralstonia eutropha*.
Mol Microbiol. **38**:626-638, 2000.

A universal scaffold for synthesis of the Fe(CN)₂(CO) moiety of [NiFe]-hydrogenase.
J Biol Chem. **287**:38845-38853, 2012.
194. **Lütte, S., A. Pohlmann, E. Zaychikov, E. Schwartz, J. R. Becher, H. Heumann, and B. Friedrich.**
Autotrophic production of stable isotope labeled-arginine in *Ralstonia eutropha* strain H16.
Appl Environ Microbiol. **78**:7884-7890, 2012.
195. **Schwartz, E., J. Fritsch, and B. Friedrich.** E. Schwartz, J. Fritsch, B. Friedrich, in *The Prokaryotes* (Eds.: E. Rosenberg, E. DeLong, S. Lory, E. Stackebrandt, F. Thompson), Springer Berlin Heidelberg, pp. 119-199, 2013.
196. **Fritsch, J., O. Lenz, and B. Friedrich.** Structure, function and biosynthesis of O₂-tolerant hydrogenases.
Nat Rev Microbiol. **11**:106-14, 2013.
197. **Schäfer, C., B. Friedrich, and O. Lenz,** Novel, oxygen-insensitive group 5 [NiFe]-hydrogenase in *Ralstonia eutropha*.

- Appl Environ Microbiol 79, 5137-5145, 2013.
198. **Fritsch, J., E. Siebert, J. Priebe, I. Zebger, F. Lenzian, C. Teutloff, B. Friedrich, and O. Lenz.** Rubredoxin-related maturation factor guarantees metal cofactor integrity during aerobic biosynthesis of membrane-bound [NiFe]-hydrogenase. J Biol Chem. **289**:7982-7993, 2014.
199. **Frielingsdorf, S., Fritsch, J., Schmidt, A., Hammer, M., Lowenstein, J., Siebert, E., Pelmeshikov, V., Jaenicke, T., Kalms, J., Rippers, Y., Lenzian, F., Zebger, I., Teutloff, C., Kaupp, M., Bittl, R., Hildebrandt, P., Friedrich, B., Lenz, O., and P. Scheerer.** Reversible [4Fe-3S] cluster morphing in an O₂-tolerant [NiFe] hydrogenase. Nat Chem Biol. **5**:378-85, 2014.
